out to the Board that they had £39,000 in hand and that they might reasonably expect to have £10,000 a year savings after deducting the usual maintenance and establishment charges. The Board considered the proposals carefully one by one and approved of some of them, but refused to support others, the President pointing out that the Board could not commit themselves to expending all their savings on roads only and that money was required for village sanitation, wells and other objects.

Statement of original District Fund works proposed to be undertaken and approved of by the Local Fund Board, Mysore Circle, at its meeting held on the 20th of May 1890.

No.	Name of work.	Length in Miles	Approximate Cost Rs	Remarks.
1	Metalling the first 8½ miles of Yelwal Hassan Road, and 4½ miles of Sagarcutty Ramanath Road.	13	13.000	Both these portions make up the Yelwal Sagarcutty road on which traffic is so very heavy as to necessitate its metalling: The metal cost will be 4 yards wide and 4" deep.
2	Improving Seringapatam South Sivasamudram Road.		5.000	The present irrigation drains in the 23rd and 24th miles of this road consist of rough stones laid dry and are a source of constant trouble during the irrigation season. They are therefore proposed to be built "pucka".
3.	Improving Mysore Talcad Sivasamudrum Road.		4.000	Do. in the 15th, 16th, 17th & 18th miles. Do.
4	Opening out Saligram Hadya Road	6	5.000	Saligram is a large place with a population of 3500. The proposed road will connect it with

809

6.	Opening out Chama Raj nagar yellandoor Road.	16	16.000
7	Sinking wells.		8.000
8	Improving Hassan piriapatana Cauvanore Road.		3.000
9.	Provision for unforeseen works.		5,000
	Total Rupees		89,000

This road is very much needed to open out the rich western portion of Chama Raj nagar Taluq. Wells are needed in many places for supplying good drinking water to villages, and also along roads. Drainage to be improved and bad portions gravelled between Ané Chowkúr and Periapatam, which action is at present very bad.

5.	Improving Chama Raj nagar Varnipur Road	21	30.000

yedatore on one side, and Bettadapur & Kanzepett on the other.

This road passes through black cotton soil for the greater portion of its length. It keeps fair in the dry weather, but in the wet, the surface becomes so very heavy, that it is with extreme difficulty that carts go over it. In the interest of traffic therefore, which is heavy on this road, it is proposed to first treat the surface with sand and then gravel it. It is also proposed to

Proceedings of the L. F. Board of the Mysore District ~~for~~ held on the 20th May 1890, submitted with the Docket of the D/ Com. Mysore Division dated 6th June 1890 No 278

(482/90)

No 3902-11 Cir 71 of 20-7-90 Order thereon :-

Under the circumstances stated the Government are pleased to allot Rs 10,000 for 1890-91 for the excavation of wells in the several Taluks of the Mysore District

2. It is not stated by whom the works are proposed to be executed. If they are to be carried out by the Revenue authorities estimates for works costing more than Rs 200 should be submitted to Government, Notifications of sanction being

being transmitted for works costing less than 200. If they are to be carried out by the D.P.W, the estimates will be passed by that Department under the rules.

3. In consideration of the inadequacy of the Municipal funds, the Government have decided that the expenditure of ~~the~~ feeding In-patients in Local Fund Dispensaries should be wholly deducted from District Funds. If the Co of Cons however considers that a portion of the extra charge allotment proposed to be made by the L. F Board for the purpose can be borne by the Municipalities in which the Dispensaries are situated, he should obtain the opinions of the Boards concerned and state

state what additional sums are required for each Dispensary and how much of it he proposes to debit to the municipalities.

„ T. Ramachandra Rao, Amildar, Gundlupet.

„ Govindappa, Amildar, Chamrajnagar.

„ Narsanna do Nanjangud.

„ M. Krishnaiengar do Tirumakudlu-Narsipur.

Non-Official Members.

„ Davudkhan, Pensioned Amildar.

„ Narasimmaiya, Municipal Commissioner, Nanjangud.

„ Annaiya Pandit do Mysore.

„ Srirangachar, Jodidar, Dodda Abbagil.

Absent.—Mr. Sivoji Rao, Landed Proprietor, Yedatore.

„ P. Venkatnaranappa do Hunsur.

The District Inamdar, vacant.

1. This half-yearly meeting of the Local Fund Board is convened at the beginning of the year to review the working of the funds during the past year and to consider proposals for utilizing the unexpended balance.

2. The accounts of last year were laid before the Board and approved.

3. The balance on the 1st April 1889 at the credit of the District Funds of the Mysore and French Rocks Circles was Rs. 76,609. Apportioning this balance in the proportion of the receipts of the two Boards as directed in para 3 of the Proceedings of Government No. 9877-80—217, dated 12th February 1890, the closing balance for the Mysore Board is about Rs. 39,000.

4. Mr. Karve, Executive Engineer, submitted a forecast programme for the expenditure of Rs. 89,000 to be carried through in the next five years. He pointed out to the Board that they had Rs. 39,000 in hand and that they might reasonably

expect to have Rs. 10,000 a year savings after deducting the usual maintenance and establishment charges. The Board considered the proposals carefully one by one and approved of some of them, but refused to support others, the President pointing out that the Board could not commit themselves to expending all their savings on roads only and that money was required for village sanitation, wells and other objects.

5. The attention of the Board was drawn to para 9 of Government Proceedings No. 9060-72—Cir. 219, dated 12th March 1890, in regard to the excavation of wells for drinking water and it was unanimously resolved to allot Rs. 10,000 towards assisting villagers in improving their drinking water supply.

6. The Amildars and representatives of the different Taluks then laid before the Board the names of the villages which were in urgent need of water.

7. The sinking of the * following wells was then approved of, it being understood that grants are only to be given on each village executing a mutchalika to contribute half the cost of the well either in money or labor.

Vide list appended.

8. To this rule 2 exceptions were admitted for wells to be sunk for travellers by the side of the high road to Hunsur where for a long weary stretch of road there is absolutely no water to be had and travellers suffer accordingly.

9. The above resolution was declared to be urgent and the President was authorized to apply to Government for sanction to take the Rs. 10,000 from the Rs. 39,000 balance and to commence the works at once.

10. The Civil Surgeon then brought to the notice of the Board that though Government had sanctioned furniture for the Dispensaries, the funds allotted for the support of the patients being only Rs. 25 were insufficient especially for Dispensaries like those of Hunsur and Nanjangud.

11. The President pointed out that these Dispensaries were generally in Municipal Towns. Eventually it was unanimously agreed by the Board that a grant should be given to the Civil Surgeon of Rs. 100 for the maintenance of patients, it being understood that the Municipalities would be asked to contribute an equal amount.

12. The proposal of the Executive Engineer to keep Rs. 5,000 unallotted for unforeseen expenditure was approved of.

13. Proposals for the establishment of Musafirkhanas at Santemarhalli, Mirle and other places were not approved of as such buildings are provided out of Provincial Funds.

14. The Board which commenced its sitting at 11 o'clock rose at 2-30.

MYSORE DIVISION.

Statement of Original District Fund Works proposed to be undertaken and approved of by the Local Fund Board, Mysore Circle, at its meeting held on the 20th of May 1890.

Number.	Name of Work	Length in Miles.	Approximate Cost Rs.	Remarks.
1	Metalling the first 8½ miles of Yelwal-Hassan Road, and 4½ miles of Sagarkatte-Ramnathpur road	13	13,000	Both these portions make up the Yelwal-Sagarkatte road on which traffic is so very heavy as to necessitate its metalling. The metal cast will be 4 yards wide and 4" deep.
2	Improving Seringapatam, Sosile-Sivasamudram road ...	...	5,000	The present irrigation drains in the 23rd and 24th miles of this road consist of rough stones laid dry and are a source of constant trouble during the irrigation season. They are therefore proposed to be built "pucka."
3	Improving Mysore, Talkad-Sivasamudram road ...	...	4,000	Do in the 15th, 16th, 17th and 18th miles do
4	Opening out Saligram-Hadya road ...	6	5,000	Saligram is a large place with a population of 3,500. The proposed road will connect it with Yedatore on one side and Bettadpur and Fraserpet on the other.

5	Improving Chamrajnagar-Narsipur road	21	30,000	This road passes through black cotton soil for the greater portion of its length. It keeps fair in the dry weather, but in the wet, the surface becomes so very heavy that it is with extreme difficulty that carts go over it. In the interest of traffic therefore which is heavy on this road, it is proposed to first treat the surface with sand and then gravel it. It is also proposed to bridge the difficult drainages on this line.
6	Opening out Chamrajnagar-Yelandur road	16	16,000	This road is very much needed to open out the rich western portion of Chamrajnagar Taluk.
7	Sinking wells		8,000	Wells are needed in many places for supplying good drinking water to villages, and also along roads.
